

## About **Jeff Rakar**

---

Jeff Rakar is a Network Security Engineer for North Coast Council. He has been with NCC since 1998.

Jeff received an Associate of Electronics. He establishes networking environments (LAN, WAN, Wireless, VoIP) by designing system configuration; directing system installation; defining, documenting, and enforcing system standards. He maximizes network performance by monitoring performance; troubleshooting network problems and outages; scheduling upgrades; collaborating with network architects on network optimization. He also secures the network system by establishing and enforcing policies; defining and monitoring access.

Jeff currently holds a CCNP Security certification with Cisco Systems.

Prior to working at North Coast Council, Jeff was lead telephone engineer for nine years at McDonald and Company.
